

Title	Project on Russia & East Europe
College	Illinois Valley Community College
Duration	2019-2024

Objectives and Potential Impact:

IVCC would like to implement a 4-year plan to improve international curriculum across the campus by internationalizing existing courses and providing professional development opportunities for our faculty. We have included faculty from a variety of disciplines, including career and technical programs, for these opportunities. The impact of this program would be to increase global literacy among our faculty and to provide more opportunities for students to participate in classes that include global competencies as part of the curriculum.
