

Title	Project on South Asia
College	Harper College
Duration	2021-2025

## **Objectives and Potential Impact:**

We aim to infuse 7 courses taught by 5 Harper College full-time faculty. These 7 courses will impact a minimum of 408 students for each year of the grant, totaling over 1600 students during the grant period. All five faculty are members of the South Asia GRF professional development cohort. They are seasoned teachers and highly motivated to participate in this grant project.

Each curriculum infusion project fulfills and will be assessed according to one or more of Harper College's Global Learning Outcomes.

In addition to these curriculum infusion projects, we envision a number of co-curricular programs, including speakers, campus presentations, excursions, public performances, and conferences.

During the course of the project, we will offer presentations and workshops on campus highlighting the success of these projects. Project participants will present their projects and findings at our annual International Education Summit, which we have hosted successfully for 12 years.

## Community College Project Team:

Title	Project on South Asia
College	Harper College
Address	1200 West Algonquin Road / Palatine, IL 60067
Duration	2021-2025

Project Leader	Dr. Richard Johnson
